PROFESSIONAL SUMMARY

Dedicated and self-driven Computer Science undergraduate specializing in Computer Systems and Networking. Possess a robust foundation in computer networks, operating systems, and cybersecurity, with theoretical and practical exposure to VPN technologies, WAN architectures, and routing concepts. Proficient in Java, Python, and C++, alongside modern development and containerization tools like Docker and GitHub. Seeking a remote/online Network Engineering internship to leverage a strong academic background and programming skills in a real-world network operations and automation environment.

EDUCATION

Universiti Malaya (UM)

Kuala Lumpur, Malaysia

Bachelor of Computer Science (Computer System and Network) Expected Graduation: 2028

- **Current CGPA:** 3.78 / 4.00 (Awarded **Dean's Award** for 3 consecutive semesters)
- **Relevant Coursework:**
 - Advanced Network Technology (**A+**)
 - Systems Analysis and Design (**A+**)
 - Network Security (**A-**)
 - Network Technology Foundation (**A-**)
 - Computer System Architecture (**A-**)
 - Operating Systems (**B+**)

TECHNICAL SKILLS

- **Networking & Security:** Routing and Switching, VPN Deployment Principles, WAN Concepts, Network Topology Design, Cybersecurity Fundamentals.
- **Programming Languages:** Java (Core University Language), Python, C++.
- **Tools & Platforms:** Docker (Containerization), GitHub (Version Control), Oracle APEX, Google AI Studio.
- **Languages:** English (IELTS 6.0 - Professional Working Proficiency), Mandarin (Native).

CERTIFICATIONS & TRAINING

Cisco Networking Academy

Online

- Completed comprehensive modules on core computer networking concepts.

- Gained practical and theoretical understanding of various VPN technologies, Wide Area Network (WAN) architectures, and enterprise-grade secure connectivity protocols.

AI & Cybersecurity Foundation Project | Yayasan Peneraju

- Participated in a joint training program focusing on the intersection of Artificial Intelligence and Cybersecurity.
- Acquired knowledge of modern network defense mechanisms and the application of AI in identifying and mitigating security threats.

AWARDS & ACHIEVEMENTS

- **Academic Excellence:** Dean's Award, Faculty of Computer Science and Information Technology, Universiti Malaya (3 Semesters).
- **Technical Competition:** 1st Prize, Sichuan Province Robot Maker Competition.
- **Programming:** Competitor, National Olympiad in Informatics (C++).
- **Leadership:** Recognized as "Outstanding Student Leader" by the Municipal Education Bureau (Mian Yang Nan Shan Bilingual School).
